## IMBIBER BEADS

- Imbiber Beads® capture and contain a broad range of liquid organics including gasoline, diesel/jet fuels, transformer oils, chlorinated solvents and many more hazardous chemicals.
- Eliminate free liquids, which means up to 99% vapor reduction. The vapors support combustion and the vapors are toxic when inhaled.
- Organic liquids are absorbed into the beads, causing them to swell and pick up many, many times their own volume of liquid.
- The beads change color from white to pink to red as saturation of organic liquid increases.
- They are unaffected by water.
